

Institut Supérieur du Bâtiment et des Travaux Publics - Marseille

● Institution's profile

Specialized school of engineering operated by the Marseille-Provence chamber of commerce and industry.

Founded in 1953, the school trains about 20 specialized engineers each year in a one-year curriculum consisting of six months of courses, a two-month project, and a 3.5-month internship.

Major fields of study

Engineering specializations in quantitative specification for projects in construction, infrastructure, and geotechnical areas.

Strengths

- In cooperation with consulting engineers and experts in building and public works, who oversee program content.
- Continuing education programs managed by FORMISBA.

Location

Château Gombert technology park (Polytech Marseille and Centrale Marseille)
